

<b>Country</b>	United Kingdom
<b>Name</b>	Dorothy Beadsworth
<b>Proposal</b>	We need to discuss what ILCA are doing about the amount of replica equipment that is being distributed and used, particularly replica sails
<b>Current Situation</b>	The use of replica sails at club level is a big problem in the UK. The UK Class Association are only able to scrutineer boats and equipment at their major events, but we are getting many complaints from club sailors who find they are racing against other sailors in their club using replica sails. The UKLA are sending strong messages to our clubs that the use of replica sails is not allowed.
<b>Reason for Proposal</b>	The use of replica sails is undermining the One Design of Laser.
